

# Model class(Student)

# Controller class

# View code and display Obj1

The screenshot shows the Microsoft Visual Studio IDE with the following components:

- Code Editor:** Displays the `Index1.cshtml` file. The code sets `ViewBag.Title = "Index";` and renders a table with columns `Id`, `Name`, `Age`, and `Contact`. The table body contains one row with values `1`, `Ummaima`, `3`, and `0303`.
- Output Window:** Shows the debug output, indicating that the application has exited with code `-1 (0xffffffff)`.
- Browser Window:** Displays the rendered HTML output in a web browser. The page title is "Index". The table structure matches the code, showing the data row. The footer text is "© 2022 - My ASP.NET Application".

# View code and chrome display of obj2
